Summer 2019 Internship Opportunity
May – August \$17.00/hour
Environmental Services Engineering Intern

Those who are a Junior or Senior level in college with coursework in **environmental engineering, chemical engineering, or civil engineering.**

This intern will assist with - Storm water sampling. Updating facility environmental plans (including Fugitive Dust Plans), Spill Prevention. Control and Countermeasures Plans and Storm Water Pollution Prevention Plans. State and federal reporting requirements for hazardous materials, Permit compliance reports. Research upcoming regulatory requirements in multiple environmental medias. Annual facility audits for drinking water facilities and power stations. Sustainability program involvement with multi-department interviews and presentations.

Our goal is to expose an intern to all environmental disciplines at the BWL before focusing their experience on what they're most interested in. Disciplines include:

- Air Quality (monitoring emissions and reporting requirements)
- Remediation (groundwater monitoring analysis and reporting)
- Surface Water Quality (storm water management, NPDES permit compliance)
- Drinking Water Quality (DEQ and customer interactions, data analysis)
- Spill Response (plan updates, facility assessment and response)
- Waste Management (waste classification and disposal)
- Sustainability (recycling, composting and data analysis)
- Various Engineering Projects (design, technical writing, and site visits)

Please email* to bwjobs@lbwl.com your:

- Resume
- Cover letter
- BWL Application - BWL applications can be found, downloaded, and completed from lbwl.com – employment opportunities.

It is imperative you designate the specific internship name that you are applying for in the subject line of your email. *If you are interested in more than one internship PLEASE note ALL of them in the subject line of your mail. Deadline to apply is January 15, 2019.

The Board of Water & Light (BWL) serves Lansing MI and surrounding areas with electricity, water and steam. Chartered in 1885 by a vote of Lansing's citizens, the BWL remains a public power utility in its second century of service. Lansing's city charter vests the BWL with full and exclusive management of water, steam, and electric services for the city. The American Public Power Association has honored the BWL as one of the country's best publicly-owned utilities. For more about the BWL see: <http://www.lbwl.com>.

THE BOARD OF WATER AND LIGHT IS AN EQUAL OPPORTUNITY EMPLOYER.
