

# Resolve to Save in 2019

## We'll Cook Up Rebates When You Upgrade to Energy-Efficient Kitchen Equipment

According to ENERGY STAR®, restaurants use about 5-7 times more energy per square foot than other commercial buildings. Here's a breakdown of the average energy consumption in a full-service restaurant:

- Food preparation: 35%
- HVAC: 28%
- Sanitation: 18%
- Lighting: 13%
- Refrigeration: 6%

To make the most significant impact on your energy bill, it's time to upgrade to energy-efficient products.

BWL's Hometown Energy Savers® Business Program presents a multitude of commercial kitchen and refrigeration rebates. With their help, improvements become economical. Rebates are available for:

- Dishwashers
- Ice machines
- Refrigeration
- Steam cookers

For more information on the available rebates, call 517-316-7859 or visit [hometownenergysavers.com](http://hometownenergysavers.com).

## Popular Rebates for Your Home Continue

Since 2009 BWL customers have saved more than 175 million kilowatt hours of electricity through the Hometown Energy Savers® Program. From rebates, to in-store discounts and more our programs are good for your wallet and good for the environment. Here's a look at our 2019 rebates:
